**Document ID:** DOC_ESCALATE_01
**Title:** Manager Escalation Procedures
**Category:** Operations
**Version:** 1.0
**Active:** true

**Content:**

Purpose: Make sure urgent issues reach someone who can make a decision.

1. Escalate any equipment temperature that is out of range after a re-check, any food safety concern, any injury, or any cash variance over $10.

2. Notify the shift manager in person or by phone within 15 minutes of confirming the issue.

3. If the shift manager does not respond within 15 minutes, contact the store manager.

4. If no manager can be reached within 30 minutes, call the District On-Call Line posted in the back office.

5. The manager decides whether to request equipment service, discard product, or adjust operations.

6. Complete an Incident Report before the end of the shift, including what happened, who was notified, and the time of each notification.
