Title: Milk Handling and Rotation
Category: Food Safety
Version: 1.0
Active: true

Content:

Purpose: Keep milk fresh and safe to serve.

1. Label every opened milk container with the date and time it was opened.

2. Use opened milk within 3 days or by the printed date, whichever comes first.

3. Rotate stock using first in, first out. Place new deliveries behind older stock.

4. Do not leave milk pitchers on the counter for more than 30 minutes. Return milk to the refrigerator between rushes.

5. Never combine milk from two containers.

6. Discard milk that smells sour, looks curdled, or is past its use date.
