**Document ID:** DOC_POWER_01
**Title:** Power Outage Response
**Category:** Equipment
**Version:** 1.0
**Active:** true

**Content:**

Purpose: Keep guests, staff, and inventory safe during a power outage.

1. If the power goes out, stop taking new orders and finish only the orders that can be completed safely.

2. Keep refrigerator and freezer doors closed to hold the cold inside.

3. Record the time the power went out and notify the shift manager following Manager Escalation Procedures.

4. When power returns, check and record all refrigerator and freezer temperatures.

5. If any unit is out of range, follow Food Storage Safety before using any food from that unit.
